

## What Our Customers Say

The food was very delicious-we particularly enjoyed the sushi rolls and tempura. We finished everything because it tasted so good.

We always enjoy our dining experience at Seoul Restaurant. The atmosphere is comfortable and the wait staff is both friendly and attentive. Their menu provides great variety, from traditional Korean & Japanese foods to innovative sushi creations. The menu is also easy to read and has detailed descriptions for those unfamiliar with Asian cuisine. The portions are generous and presentations are attractive. We love to go to try new foods and relax.

We love to eat Korean food! Every time we come here the food is great. The side dishes are spectacular! We come here every week. We travel one hour to get here, but it's worth it.

I moved away from New Haven more than three years ago, but when we were driving through town on a family trip the one place that we wanted to come eat was Seoul Restaurant. The bibimbap is wonderful!

The exterior of the restaurant blends in well with the city block. It is only when you step inside do you realize how the interior atmosphere transforms your mood. A simple yet beautiful Asian elegance surrounds you and has a relaxing and calming effect on your mood. The staff was very inviting and attentive. They made me feel important and that they cared about my dining experience. It is not common to find a restaurant that cares about its customers like this restaurant.
